DETAILED ACTION

This is the first action relating to serial application number 10/573,392 filed 03-23-2006.

Claims 1-4 are currently.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to because in figure 1, the cross sectional line A-A should be --5-5-- or --VI-VI--. The plane upon which a sectional view is taken should be indicated on the view from which the section is cut by a broken line. The ends of the broken line should be designated by Arabic or Roman numerals corresponding to the view number of the sectional view, and should have arrows to indicate the direction of sight.

In addition, in fig 6, it is not clear as to what "A-A" represents.

Furthermore, the drawing line/references are not clear so as to identify each detail of the drawing.

3. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the

applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: it is not proper to include legal terms and references to the claim numerals in the specification. Therefore, the legal terms “said” (for example page 4, lines 7, 25, page 5, lines (24-25, page 7, line 26 and page 8, line 17); the reference to claim 1 (for example page 4, line 17) must be removed.

In addition, in page 5, line 8, the cross sectional line "A-A" should be either --5-5-
- or --VI-VI--. See drawing objection to above.

In page 8, line 8, numerals 0,7 and 1,2 should be --0.4-- and --1.2--; line 15, the
term "diameter" should be --diameter--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly
claiming the subject matter which the applicant regards as his invention.

6. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite
for failing to particularly point out and distinctly claim the subject matter which applicant
regards as the invention. The term "preferable" renders the claim indefinite since the
resulting claim does not clearly set forth the metes and bounds of the patent protection
desired.

Allowable Subject Matter

7. Claims 1-3 are allowed.

8. Claim 4 would be allowable if rewritten to overcome the rejection(s) under 35
U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the
limitations of the base claim and any intervening claims.

Citation

9. The prior art made of record and not relied upon is considered pertinent to
applicant's disclosure. Note the prior art cited in attached PTO Form 892.
